

Precision Plastic Potentiometer Type: PK 613 - 46 M II d

FERNSTEUERGERÄTE
 Kurt Oelsch GmbH
 Jahnstr. 68 + 70
 12347 Berlin (Britz)

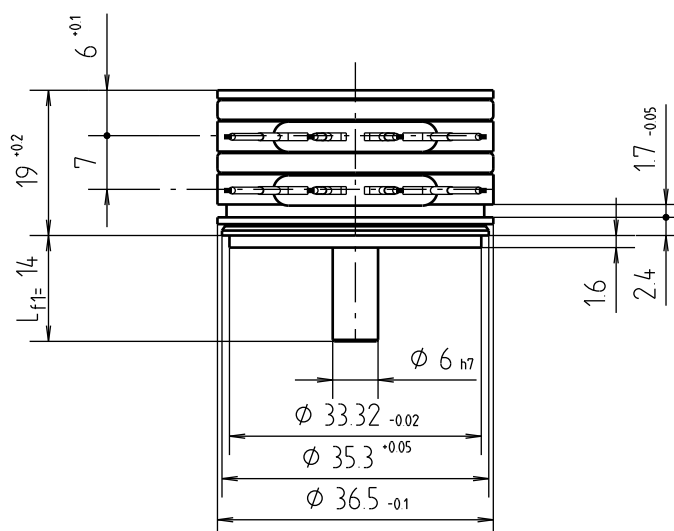

characteristics - mechanical

Type: PK 613 - 46 M II d
 in casing of servo mount size 13
 shaft diameter 6mm
 length from support 14mm
 IP code of potentiometer IP 30
 connection via fast-on plug
 0087W02-50:00A
 version for ship with sintered bearing
 and double contact pressure
 stranded hook-up wire highly flexible
 Type: Lily, 0,25 mm² (128x0.05)
 length of flexible wires 350mm
 (EH 103-01....)

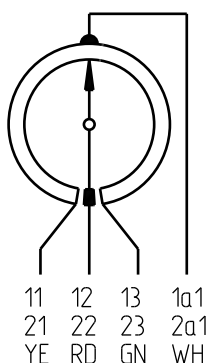

characteristics - electrical

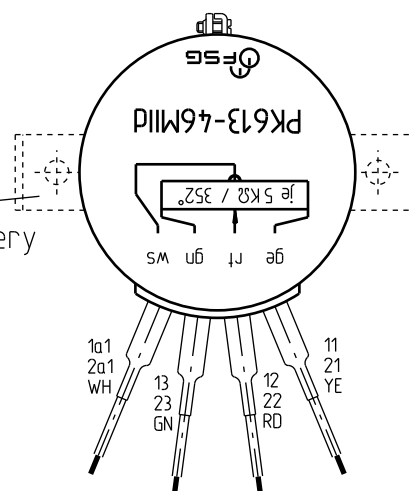

multiple version
 resistance element SD I and II:
 with center tapping, each
 wiper continuous rotation
 without limit stops
 value of resistance 5 kΩ ± 10%
 active angle 352°
 sense of rotation: right (view shaftside)
 carrying capacity 1.5 W
 wiper synchronism: max. ± 2.5

circuit diagram

anchoring clips
 0061W01-00:06
 are included with delivery
 (accessories)
